LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

Alma Communications Company (“the Company”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its local exchange tariff, which is approved by the Missouri Public Service Commission (“Missouri PSC”). The tariff contains provisions regarding the Company’s customer service and protection practices.

Service quality standards for voice service are established by the Missouri PSC. The Company consistently meets or exceeds those standards and provides reports to the Missouri PSC, in accordance with the Missouri PSC’s rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Company. The Company also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require the Company to publicly disclose information regarding its network management practices, performance, and the commercial terms of its broadband services.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011).

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Alma Communications Company (“the Company”) is able to remain functional in emergency situations for both voice and broadband service. The Company has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations. The Company also maintains a disaster recovery manual, which has been filed with the Missouri Public Service Commission.

The Company is a single wire center company that operates a fiber-to-the-home network. The Company has power systems in the central office capable of supplying 48 volt power for a minimum of eight hours with no outside power source. The Company also maintains a standby generator capable of running for an extended number of days. All optical network terminals (“ONTs”) at the customer premises have an uninterruptible power supply (“UPS”) capable of providing eight to 12 hours of DC power to the ONT with no outside power source. Back-up power supplies are tested and maintained as necessary. The Company takes no responsibility for the capabilities of interconnected networks to manage traffic spikes resulting from emergency situations, but will continue its best efforts for its own network during such events.

The Company has the capacity for all customers to utilize the phone at the same time for local services. For all non-local services, the Company connects through a meet-point with two different tandem offices. The Company’s switched traffic leaves the central office and is maintained on redundant fiber paths. The Company’s special access and 9-1-1 traffic leaves the central office utilizing two different fiber paths which allows for redirection of traffic should one be disrupted. Prior to the meet-point, both paths are joined for a short distance; traffic is directed on the Company’s facilities utilizing a linear path. Once handoff of traffic to the tandem provider occurs at the meet-point, it is directed for a short distance on a linear path but then redirected to complete on a redundant path. Building 100 percent redundant paths would be cost prohibitive.

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau’s 2017 reasonable comparability benchmark for voice services is \$49.51, which includes the federal subscriber line charge (“SLC”).¹

In all of the exchanges served by Alma Communications Company (“the Company”), as of January 1, 2017, the single-line residential local rate was \$18.00. When the federal SLC (\$6.50) is included, the total rate was \$24.50. Therefore, the Company’s pricing of fixed voice services is less than the reasonable comparability benchmark of \$49.51.

¹ *Wireline Competition Bureau Announces Results of 2017 Urban Rate Survey for Fixed Voice and Broadband Services, Posting of Survey Data and Explanatory Notes, and Required Minimum Usage Allowance for ETCs Subject to Broadband Public Interest Obligations*, Public Notice, WC Docket No. 10-90, 32 FCC Rcd 1358 (2017).

LINE 1030 – BROADBAND SERVICES RATE COMPARABILITY

As of January 1, 2017, Alma Communications Company charges a residential rate of \$75.95 for broadband providing 15 Mbps download, 3 Mbps upload, and an unlimited usage allowance. This rate is lower than \$83.82, which is the 2017 reasonable comparability benchmark for the same offering established by the Wireline Competition Bureau.¹

See also, <https://www.fcc.gov/general/reasonable-comparability-benchmark-calculator>.

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Residential customers of Alma Communications Company (“the Company”) who qualify for the Lifeline Program receive a monthly discount of \$15.75 (\$9.25 federal discount +\$6.50 state lifeline discount) on local voice telephony service.

In all of the Company’s exchanges, the Lifeline single-line residential rate, including the federal subscriber line charge (“SLC”), is \$8.75 (\$24.50 standard rate - \$15.75 discount).

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within their local calling area.

Lifeline customers may subscribe to toll service offered by Alma Long Distance at a non-discounted rate of \$.15/min., billed in six second increments. Lifeline customers may also choose another long distance carrier. Lifeline customers may also elect to subscribe to toll blocking at no charge.

Lifeline Program reductions do not apply to additional services such as custom calling features. Lifeline customers may subscribe to these services, where available, at the same rates offered to other customers.

LINE 3010 – CERTIFICATION OF PUBLIC INTEREST OBLIGATIONS

Alma Communications Company (“the Company”) hereby certifies that the Company has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, and that requests for such service were met within a reasonable amount of time.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0572-0031. The time required to complete this information collection is estimated to average 4 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
